

PROJECT BRIEF

I-41 INTERCHANGE CONSTRUCTION

Schedule:

2014 - 2018

Location:

Winnebago County

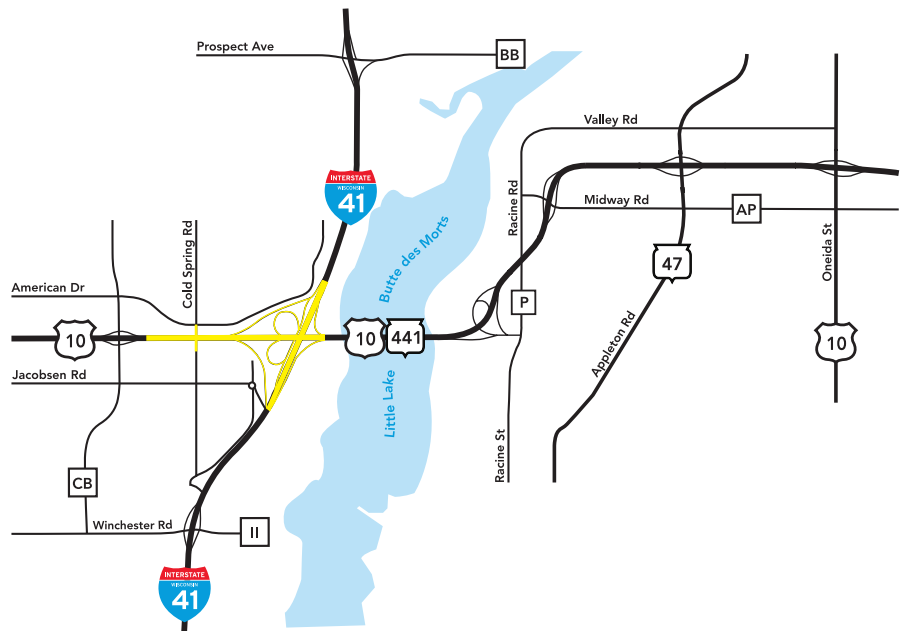

About the WIS 441 Tri-County Project:

Construction work on the WIS 441 Tri-County Project spans 6 miles along the US 10 /WIS 441, from County CB to east of Oneida Street. The project includes:

- adding a new parallel bridge south of existing bridge
- reconstruction of 5 interchanges
- 4 roundabouts
- 15 traffic cameras installed
- constructing a Diverging Diamond Interchange

I-41 INTERCHANGE CONSTRUCTION

Project Construction Timeline (2014 through 2018)

I-41 interchange grading work began in the summer of 2014. Project construction includes:

- Restoring missing ramp movements
 - Northbound I-41 to westbound US 10
 - Eastbound US 10 to northbound I-41
- Constructing a flyover freeway split for westbound US 10/WIS 441 to southbound I-41 to accommodate high traffic volumes
- Constructing auxiliary lanes along northbound and southbound I-41 between US 10 and County II interchanges to improve traffic operations
- Realigning a short segment of American Drive to accommodate the I-41 widening
- Constructing stormwater detention ponds to provide proper drainage

(See other side for Traffic Impacts)

I-41 INTERCHANGE CONSTRUCTION

Drivers can expect the following traffic impacts:

- US 10, WIS 441 and I-41 will have intermittent shoulder, lane and ramp closures.
- Cold Spring Road CLOSED for 60 days beginning on Monday, April 13, 2015.
- Southbound I-41 to westbound US 10 ramp will close for 30 days beginning in late spring/early summer 2015.
